

Solar Eclipse

- April 8th will bring a solar eclipse to the Northern Hemisphere. There won't be another for 20 years!
- Do you intend to observe the eclipse? If you do, make sure to do so safely!
- Write about the changes you notice during the eclipse. Does anything seem different?
- NASA is studying the results of the effect that the solar eclipse will have on the Earth, do you expect to see any effects? Write about what you think the eclipse may impact.

Journaling Prompts

- An eclipse is a rare astronomical event, write about an important rare event that has taken place in your life.
- Reflect on the symbolism of a solar eclipse. Does it represent anything to you personally?
- Think about the metaphorical meaning of a solar eclipse in your own life. Are there areas where you feel a sense of darkness or overshadowing that you hope to overcome?
